

Aluminium LED Channel

Elevate the aesthetic and functionality of your led strip lighting with the versatile mebel-alu aluminum led channels. These channels offer a broad array of mounting options, including inground, corner, pendant, surface, plaster-in (dry wall), and cabinet mounts, ensuring seamless integration into any environment.

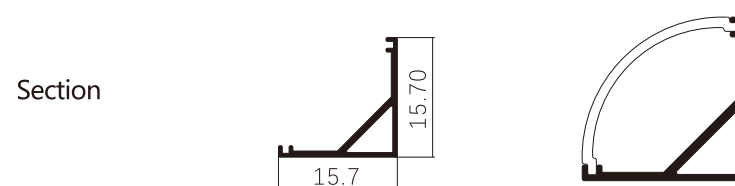

Designed to accommodate led tape lights, these aluminum profiles can be seamlessly incorporated into grooves in cabinets, stairs, ceilings, closets, floors, and walls. This allows for precise lighting placement without the need for bulky, obtrusive fixtures. Aluminum channels are crucial in any linear led fixture setup, providing a durable, lightweight housing and an effective heat management solution for led strips of any color temperature, color or output.
